

Purpose of the Map

- Identify available Back Tax Parcels (tax liens) in a Web mapping environment

Map Functions

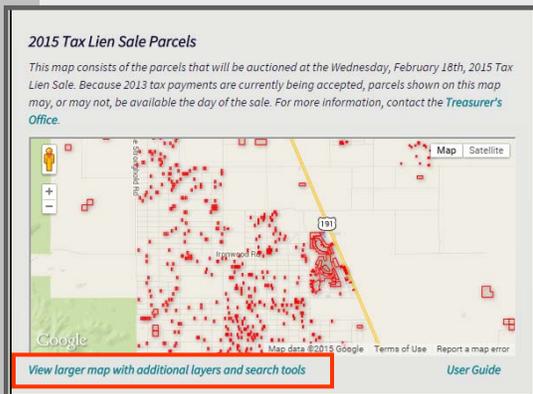

- Search for individual parcels by Tax ID
- Search for groups of parcels by Assessor Book #
- Navigate Map—Zoom and Pan
- View satellite imagery
- View the parcel in Google Street View™ (in most cases)

Benefits to the User

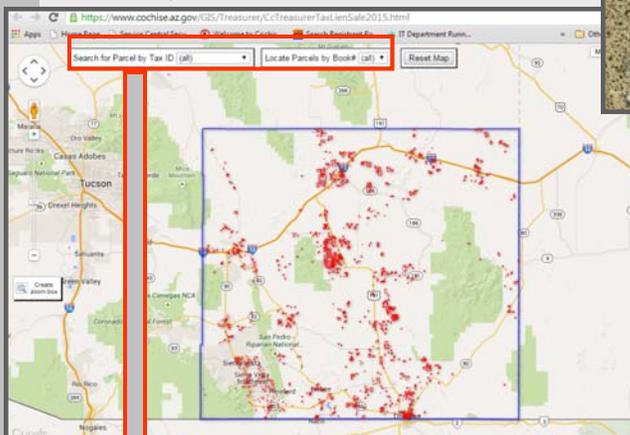

- Ability to view parcels in a geospatial context relative to other physical features, such as roads, buildings, nearby development, and other available tax lien parcels
- View information related to each parcel, such as Acreage, Certificate of Purchase Price, Full Cash Value and Foreclosure Year
