

## Census 2010/Cochise County Counts Complete Count Committee

**Meeting Summary: June 17, 2010**

**Attendees:** Cochise County Staff, Shar Porier

### **CENSUS 2010 STATUS**

Most attendees of previous committee meetings had submitted comments by phone or e-mail for inclusion in the preliminary draft final report of the activities of the Cochise County Complete Count Committee. These comments had been included and staff discussed concerns raised and recommendations made by jurisdiction and agency representatives.

### **CENSUS 2010 PRELIMINARY REPORT**

The preliminary report was reviewed for completeness and additional information identified that staff felt should be included in the final report. Additional materials and contacts were also identified for further follow-up by county staff.

### **CENSUS 2020 RECOMMENDATIONS**

Recommendations were divided into issues related directly to Bureau of the Census operations and the second into ideas for Cochise County to consider for the 2020 decennial census. Many of the counties strategies worked extremely well for the 2010 census and keeping the time constrained phased approach worked well for controlling the work load. All agreed that an earlier start with bringing staff on board would have been helpful so that the County could be fully ready to implement outreach in January of 2020.

Next steps included finalizing the report and distributing an executive summary to Complete Count Committee members.

### **ADJOURN**

The meeting adjourned at about 2:30 p.m.

This was the last meeting of the Complete Count Committee.
