1. **TYPE OF NOTIFICATION:**
   - ( ) Original; ( ) Revision 1; ( ) Revision 2; ( ) Revision 3; ( ) Revision 4; ( ) Revision 5; ( ) Cancel

2a. **FACILITY OWNER INFORMATION**

   Name of Company or Individual:

   Address:

   City/Community: State: Zip:

   Contact Person: Telephone: Fax:

2b. **ASBESTOS REMOVAL CONTRACTOR/OPERATOR:**

   Address:

   City: State: Zip:

   Contact Person: Telephone: Fax:

2c. **DEMOLITION CONTRACTOR/OPERATOR:**

   Address:

   City: State: Zip:

   Contact Person: Telephone: Fax:

3. **TYPE OF OPERATION:**

4. **PROVIDE DATE OF THOROUGH INSPECTION OF FACILITY, OR AFFECTED PART BY AN AHERA (Asbestos Hazard Emergency Response Act) CERTIFIED BUILDING INSPECTOR**

5. **FACILITY DESCRIPTION** (Attach site location map for multiple structures at one street address or installation)

   Building Name: Visible Signage:

   Street Address: Identifying Features:

   City: County: COCHISE State: AZ Zip:

   City/County Renovation Permit#: City/County Demolition Permit#:

   Building Size in Floor Area (Sq. Ft.) Number of Floors Affected: Age of Facility:

   If Residential, Number of Dwelling Units: Present Use: Prior Use:

6. **PROCEDURE, INCLUDING ANALYTICAL METHOD, EMPLOYED TO DETECT THE PRESENCE OF RACM AND CATEGORY I AND CATEGORY II NONFRIABLE ACM:**
   - ( ) Polarized Light Microscopy-PLM;
   - ( ) Point Counting;
   - ( ) Assumed;
   - ( ) Other ___________________

   NVLAP Laboratory Name______________________________________________ Number of Samples Date Analyzed

7. **APPROXIMATE AMOUNT OF ASBESTOS, INCLUDING:**

   *NOTE: Update notice when amount of RACM changes at least 20% RACM = Regulated Asbestos-Containing Material as defined in 40 CFR 61, Subpart M, Asbestos NESHAP §61.141*

   On Facility Components; Pipes (Linear Feet)

   On Facility Components; Surface Area (Square Feet)

   Off Facility Components; Volume (Cubic Feet)

8. **DATES FOR ASBESTOS REMOVAL**

   Start Date: Completion Date*: Days of Operations: M T W TH F SA SU

9. **DATES FOR DEMOLITION**

   Start Date: Completion Date*: Hours of Operations:

Instructions for Completing the NESHAP Notification Form

As per Title 40 Code of Federal Regulations Part 61, Subpart M, Asbestos NESHAP Section 61.145(b)(4), the notification form will not be considered complete without this information. The following information is required to be included on notifications submitted, prior to the start of the renovation and/or demolition activity.

Line 1  Indicate Original or Revised Notification
Line 2a  Facility Owner Information: provide name, address, and telephone number
Line 2b  Asbestos Removal Contractor/Operator: provide name address, and telephone number
Line 2c  Demolition Contractor/Operator: provide name, address, and telephone number
Line 3  Type of Operation: type of planned work
Line 5  Facility Description: provide size (square feet), number of floors, age, present and prior use, location, street address; and if appropriate, building number or name, floor number, and room number
Line 6  Procedure(s), including analytical method(s) employed to detect the presence of Regulated Asbestos Containing Material (RACM), Category I and Category II nonfriable ACM.
Line 7  List amount of Regulated Asbestos Containing Material (RACM) to be removed or generated.
Line 8  List amounts of Category I and Category II nonfriable ACM that will not be removed before demolition.
Line 8  Start and Completion dates for Asbestos Removal/Renovation
  *NOTE: Start date is defined when asbestos containing material(s) are being removed or disturbed.
Line 9  Start and Completion dates for Demolition
  *NOTE: Start date of demolition is defined when the wrecking or taking out of any load-bearing structural support member of a facility together with any related handling operations or the intentional burning of a facility begins.
Line 10  Description of Demolition and/or Renovation Work
Line 11  Description of Work Practices/Engineering Controls to be used to prevent asbestos emissions to the outside air.
Line 12(a)(b)  Waste Transporter(s): provide name, address, and telephone number
Line 13  Waste Disposal Site: provide name and location of where generated asbestos containing material will be deposited.
Line 14  Ordered Demolitions:  *NOTE: attach copy of the demolition order with the notification
Line 15  Emergency Renovations:  *NOTE: provide all information requested on notification form
Line 16  Description of procedures to be followed in the event that unexpected RACM is found or Category I or Category II nonfriable ACM becomes crumbled, pulverized, or reduce to powder.
Line 17  Signature verifying that at least one on-site trained representative is present at the facility site where the stripping and removal of regulated asbestos containing material is occurring at all times during that stripping and removal.  *NOTE: the on-site trained representative is equivalent to the 40-hour AHERA Contractor/Supervisor training
Line 18  Provide the name and certification of individual(s) that completed the thorough asbestos survey on the affected facility, or if material is assumed to contain asbestos, write "assumed".
Asbestos Demolition and Renovation Activities
NESHAP Notification Process

Purpose of Program
To protect public health from exposure to regulated asbestos-containing material (RACM) during National Emission Standards for Hazardous Air Pollutants (NESHAP) facility renovation and/or demolition activities, asbestos removal, transport and disposal, and closely monitoring those activities for proper notification and asbestos emissions control. Asbestos is a known human carcinogen and is known to cause other respiratory diseases.

What are the requirements?
Prior to the commencement of demolition or a renovation activity of a regulated facility an Asbestos Hazard Emergency Response Act (AHERA) certified building inspector must thoroughly inspect the facility or part of the facility where the demolition or renovation operation will occur for the presence of asbestos, including Category I and Category II non-friable asbestos-containing materials.

Notification Time Frame
An original notification is required to be submitted to the agency 10 working days (counting Monday through Friday) prior to the start of a renovation activity involving the removal or disturbance of threshold amounts of regulated asbestos containing materials. Threshold amounts being:  
- 260 linear feet or more on pipes  
- 160 square feet or more on other facility components  
- 35 cubic feet or more off facility components

A Notification is required to be submitted for all demolition activities, even when no asbestos is present.

Notification Fees
There are no fees associated with the notification process.

What is considered a Renovation Activity?
A renovation means altering a facility or one or more facility components in any way, including the stripping or removal of RACM from a facility component. Operations in which load-supporting structural members are wrecked or taken out are demolitions.

What is considered a Demolition Activity?
A demolition means the wrecking or taking out of any load-supporting structural member of a facility together with any related handling operations or the intentional burning of any facility.

What is considered a regulated facility?
A facility is any institutional, commercial, public, industrial or residential structure, installation, or building (including any structure, installation, or building containing condominiums or individual dwelling units operated as a residential cooperative, but excluding residential building having four or fewer dwelling units); any ship; and any active or inactive waste disposal site. For purposes of this definition, any building, structure, or installation that contains a loft used as a dwelling unit is not considered a residential structure, installation, or building. Any structure, installation or building that was previously subject to this subpart in not excluded, regardless of its current use or function. Including facility components: any part of a facility including equipment.

What Facilities are exempted?
A single residential home or structure containing one to four dwelling units, (unless classified as an installation: meaning any building or structure or any group of buildings or structures at a single demolition or renovation site that are under the control of the same owner or operator or owner or operator under common control).
