Primary Election Tuesday, August 26, 2014

### Ballot Styles

In Cochise County we have 49 election precincts. These precincts include various jurisdictions (districts) such as the community college district, justice of the peace districts, school districts, fire districts, etc. Also, in Arizona we have 4 recognized political parties (Republicans, Democrats, Libertarians, Americans Elect).

All of these districts and varying political parties result in a very large number of different ballot styles. For example:

Ballot 1 maybe for a Republican who lives in the City Limits and within the ABC Fire Districts and the XYZ school district. All races for these districts would be on this ballot style.

Ballot 2 maybe for a Republican who lives outside the city limits and not within any fire district but within MNO school district. All of these races would be on this ballot style.

In Cochise County there will be between 350 and 400 different ballots. Based on your voter registration the poll workers know which of these ballots you are to receive.

**However, it's your responsibility as the voter to check and make sure that you have received the correct ballot.** If you receive a ballot that does not include city council races and you live in the city limits please notify the poll worker so you can be given the correct ballot.
