

You're invited to our open house!

## *Cochise Health & Social Services Legacy Project - From Wild West to Striving for Best*

Cochise Health and Social Services (CHSS) is pleased to invite all county residents and county employees to visit their local CHSS clinic for an open house for light refreshments and lots of free information!

CHSS Staff will provide tours and answer questions about CHSS services. Additionally, guests may view a video of various Legacy Project features that were distributed during the first three weeks of July. Also on the tour will be the new Family Support Rooms located in all five service centers. Additionally, three new programs being highlighted are the Medication Disposal Program, the Sharps Disposal Program (both free to the public) and Live Healthy, a newly expanded prescription, dental, and medical discount program.
