

I'm a father, coach and resident of Benson, Arizona. I've lived in this school district for the past 13 years. I have served the youth of our community on numerous boards and most recently as Vice President for Benson Youth Football and Cheer. I also serve as assistant with the High School football program at Benson High School. I'm happy to serve as a Governing School Board member for BUSD given the opportunity. My passion to serve the children of our community also includes a call to serve their most precious resource for development outside of their family and home, their teachers and school administrators. My goal is to support the continued success of an already great school system and bring value anywhere needed to maintain and get even better. GO BOBCATS!
